

# ENVIRONMENTAL POLICY STATEMENT

McAllister Group is involved in drain and sewer planned maintenance, cleaning, CCTV pipeline surveys, liquid waste management, sewer mapping, sewer rehabilitation service including Cured in Place Pipelining (CIPP), patch repairs, lateral repairs and manhole rehabilitation using the no dig technologies. We have offices in Northern Ireland, Republic of Ireland and the South East of England and we employ circa 168 employees.

This environmental policy establishes our commitments to:

- ✓ environment protection and to the prevention of pollution:
- ✓ minimising the environmental impact for the life cycle of our installations,
- ✓ At least comply with our compliance obligations including to legal requirements and the requirements of interested parties,
- ✓ Continually improve our environmental performance and environmental management systems.

Our significant environmental negative effects are events that have the potential to create nuisance, working near watercourses and habitats, management of wastewaters, construction related activities and transport.

As an ISO14001:2015 certified organisation, we have an established environmental management system to deliver the above commitments, with the objective to:

1. Identify and understand our environmental risks and opportunities and environmental aspects and impacts.
2. Identify and understand our compliance obligations, including legal requirements and the needs and expectations of interested parties.
3. Identify potential emergency situations, and ensure that the risk is minimized, and that we are prepared to respond to them.
4. Ensuring all workers understand their environmental responsibilities.
5. Using and maintaining work equipment and premises to meet our environmental objectives.
6. In purchasing consider a life-cycle approach in materials selection and construction techniques and select the best technological, environmental and economical practical option.
7. In planning ensure we achieve all our commitments and maximise the efficient use of resources through good design, specification, procurement, material handling, use of competent operatives and through effective waste reduction, reuse, recycling and recovery of wastes.
8. Reviewing the performance and effectiveness of the Environment Management System.
9. Delivery of continual improvement through improvement plans and control of non-conformity.

We have established environmental objectives to achieve the above commitments which are regularly monitored by the management team.

We review the effectiveness and adequacy of this environmental policy on an annual basis and as part of change planning, lessons learnt, knowledge transfer or following an environmental incident or other failure to meet our environmental objectives.

We communicate our environmental policy to all interested parties. This policy is displayed on company premises, presented at new employee induction, displayed in any fixed construction sites under our control, and made available upon request from interested parties.

As the individuals with ultimate responsibility for environmental performance at McAllister Group we approve this environmental policy,

Signed on Behalf of McAllister Group,

**Leo McAllister, Managing Director (GB)**  
**03 August 2021**

**Peter McAllister, Managing Director (Ireland)**
